3D Challenge Money Class Format for Advancing to Finals

1. We want the best shooters advancing to the Finals in the Money Classes.
2. Only way to get that is to change our rules for advancement.

Open Money Class

1. We will take the highest 23 scores throughout the week from the first Saturday through Friday.
2. On Thursday, the highest 16 archers will be notified by a phone call.
3. On Friday, the next highest 7 archers will be notified by a phone call.
4. The second Saturday, we will take the highest score completing the field of 24.
5. The names will be posted on the PA 3D Bowhunters website and/or the GAOS website in the appropriate order without posting any scores, so individual shooters can see where they stand throughout the week.
6. Even though this doesn't allow much lead time for coming back for finals on Saturday, it allows us to bring back the shooters with the highest scores throughout the week.

Hunter Money Class

1. We will take the highest 24 scores throughout the week from the first Saturday through the second Saturday.
2. On Friday, the highest 16 archers will be notified by a phone call.
3. On Saturday, the next highest 8 archers will be notified by a phone call.
4. The names will be posted on the PA 3D Bowhunters website and/or the GAOS website in the appropriate order without posting any scores, so individual shooters can see where they stand throughout the week.
5. Even though this doesn't allow much lead time for coming back for the finals on Sunday, it allows us to bring back the shooters with the highest scores throughout the week.
